upload valid photo identification, and acknowledge the disclaimers and service agreements. Once their identity has been verified and approved, the legal representative will be issued login credentials to access the mobile application.

Become an Active Attorney

Once signed in, our legal representatives may select their availability status by marking themselves Active or Offline.

Connect with Drivers

While Active, legal reps may receive an incoming call from a driver. While in an active call, they may return to the home screen, access the driver information, as well as view any related documents provided in the driver's profile.

Review Activity

After a call has been completed, legal representatives can review recent activity, access iWTNS Tips, and more.

Opportunity, protection, advocacy, peace of mind.

These are the intangibles that an app like iWTNS provides to any driver in just one interaction. With over 20 million drivers experiencing a seemingly routine traffic stop each year, access to legal representation is needed now more than ever.

Created with safety, equity and access in mind, iWTNS is a premiere mobile application using proprietary matching algorithms to revolutionize the driving experience by connecting drivers with legal representation.
